Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative presented proposed amendments to the claims. One was to resolve the 101 rejection by changing the recited claims to be computer-readable media. Proposed amendments were presented with respect to claims 1, 11, 12, and 15-20 centering on restricting a specific action within a service area; additionally, applicant's representative proposed to modify claims 27-29 to include antecedent basis for the storage device, clarify that the input device was mobile/moveable, and that the actual space was within the specified space. Examiner stated that the proposed language as above would overcome all current grounds of rejection against all claims if the proposed language were filed as an amendment to the claims. .
